M & P Contractors Wales Ltd are one of the leading interior/exterior specialists in the UK delivering Suspended Ceilings, Partition Systems, Dry Lining, SFS Framing and associated works. M & P work in partnership with many of the UK's leading contractors, including Wilmott Dixon, Bougues, Morgan Sindall to name but a few. They have achieved an excellent reputation or delivering some of the most challenging and complex large projects comprising, schools, power stations, hospitals, airports and shopping centres.

Advocates of best practice, M & P establish long standing relationships, by offering clients value for money and upholding consistently high standards of excellence. As a company, M & P take a positive and progressive approach towards staff development and future career opportunities, training and personal development.

*'It is vital to our business success to attract, develop and retain the best people in our sector..... the Key to our success has been the training that we provided our operatives, which ensures we can deliver the most challenging Projects to the satisfaction of our clients. M & P has built up a reputation of delivering high quality solutions for the most intricate of works packages.'*

Through research and market intelligence, Coleg Sir Gar's SFI Project has developed a strong evidence base of the construction industry's current and future skills needs; the project has successfully enrolled approximately 80 of M & P's employees and subcontractors onto subsidised OSAT courses in a variety of disciplines with 40% completing second qualifications.

ISV Morrisons SFS

It will continue to be a leading support in assisting M & P in achieving their training objectives.
